DAY 1

DAY 2

HOME . SCHOOL . CHURCH

Day 1: Friday 22 February 9am-4pm "Growing Young"

Churches are losing both members and vitality as increasing numbers of young people disengage. Based on groundbreaking research with over 250 of the United State's leading congregations, Growing Young provides a strategy any church can use to involve and retain teenagers and young adults. It profiles innovative churches that are engaging 15-29 year olds and as a result are growing spiritually, emotionally, missionally, and numerically. Jake will show pastors and ministry leaders how to position their churches to engage younger generations in a way that breathes vitality, life, and energy into the whole church.

Day 2: Saturday 23 February 9am-4pm "Sticky Faith"

The data is clear that almost half of graduating high school students will drift from God and the church after high school. The team at Fuller Youth Institute are not satisfied with that. We suspect you're not either. Discover practical research-based insights for how your ministry can best partner with parents, develop intergenerational relationships, and share the Gospel with students so that faith will last long after your young people leave school or youth group.
